Recondo Technology Achieves HFMA Peer Review Designation

— EligibilityPlus Software as a Service (SaaS) is Awarded “Peer Reviewed by HFMA®”

Greenwood Village, Colorado, January 23, 2014 — Recondo Technology today announced that the firm’s EligibilityPlus™ product has been awarded the prestigious “Peer Reviewed by HFMA®” designation from the Healthcare Financial Management Association (HFMA). This designation was awarded following a rigorous review of EligibilityPlus by HFMA.

EligibilityPlus offers providers the most complete view of patient insurance benefits available in the industry by enhancing standard eligibility Electronic Data Interchange (EDI) transactions with benefit information available only on payer web portals. With a complete understanding of patient insurance benefits, providers can identify specific coverage, simplify patient registration workflows, reduce claim rework, and accurately assess patient liability.

“The Recondo team is pleased and proud to have our EligibilityPlus software recognized by the HFMA Peer Review program,” said Lori Prestesater, Recondo Chief Growth Officer. “This represents a premier recognition of the value and quality we provide to our customers, supporting their ability to get paid promptly and properly for the services they deliver. During the Peer Review process, HFMA interviewed many EligibilityPlus customers and the results are both rewarding and gratifying. We look forward to working closely with HFMA to maximize the value of this important milestone in Recondo history.”

“EligibilityPlus makes it easy for healthcare providers to validate the correct payer source and determine the exact coverage for a particular patient encounter. That’s good for both patients and providers,” said Mike Mulcahy, Senior Vice President, Payer Relations. “EligibilityPlus gives hospitals the most complete view of patient insurance benefits available today, encompassing both commercial and government insurance plans. The HFMA Peer Review designation validates the breadth and depth of the software’s capabilities and value.”

HFMA's Peer Review process provides healthcare financial managers with an objective third party evaluation of products and services used in the healthcare workplace. The rigorous, eleven-step process includes a Peer Review panel review comprised of current customers, prospects who have not made a purchase, and industry experts. Peer Review status of the product or service and its performance claims are based on effectiveness, quality and usability, price, value, and customer and technical support.

“HFMA’s Peer Review process provides our membership with the assurance that those who have earned the designation have undergone a rigorous screening process,” says HFMA President and CEO Joseph J. Fifer, FHFMA, CPA. “The Peer Reviewed designation helps both members and non-members identify superior products and services. It can also create brand awareness and recognition in the healthcare finance marketplace for Peer Reviewed products and services.”

About Recondo Technology

Recondo solutions achieve financial clarity for all participants within the healthcare revenue cycle. The result is a closer relationship with payers, a better healthcare experience for patients, and a confident and motivated staff that sees their value manifested in superior healthcare service. Recondo combines sophisticated rules architectures, legacy integration, and data mining to provide true interoperability for more than 850 US facilities and more than 500 payers.
